

FORENSICS SERVICES

PERSONAL INJURY AND WORKMAN'S COMPENSATION

Our doctors specialize in the assessment and intervention of those currently involved in the judicial system, whether children or adults.

PSYCHOLOGICAL EVALUATIONS

Testing to examine psychological distress, functional ability, or malingering.

EXPERT TESTIMONY

We will go to trial for you to discuss the details of the case.

INDIVIDUAL TREATMENT

Group and individual therapy, cognitive rehabilitation.

NEUROPSYCHOLOGICAL ASSESSMENTS

Testing to examine brain function, extent and nature of impairment.

COURT ORDERED EVALUATIONS

You send 'em, we'll treat 'em.

CATASTROPHIC INJURY

Including brain injury, physical injury, spinal cord injury, burns, and chronic pain.

Dr. Jeremy Hertzza, PsyD

From a forensic standpoint, NeuroBehavioral Associates addresses all neurocognitive and psychiatric needs. We perform IMEs, medical chart review, and full treatment including psychiatric evaluation and medication management, psychotherapy, groups, and neuropsychological assessment. Dr. Hertzza has significant experience in depositions and courtroom examination. We are also willing to travel throughout the states of Georgia and South Carolina. Common referrals are workers compensation, personal injury, disability, and medical malpractice. Communication with case managers and attorneys is always a priority, and we are available for phone consultation.
